

# ECOTINT® Drop in

POS Colorants for Decorative Paints and Plasters

**ECOTINT® Drop in** Tinting systems contain 300++ colorants with their equivalent configurations to the standard market solutions.

All **ECOTINT® Drop In** colorants utilize latest **ECOTINT®** low VOC <1 g/l technology and in accordance with the latest environmental requirements.

**ECOTINT® Drop in** colorants enhance the properties of your current POS tinting by solving quality issues such as compatibility, exterior durability and canister performances.

Our Research & Development center is the heart of this process.

## Key Benefits

- **Competitive Prices**
- **No waste no cleaning, same database**
- **Solving existing quality issues**
- **Excellent stability**
- **Latest Generation Technology**

## LEONICE POS Coloring System

**ECOTINT® Drop in** colorants combined with LEOMIX® PRO software and LEOMIX® Fandecks create a distinct Tinting system which enables paint producers to achieve the highest performance of their products and differentiate them from competition providing:

- Customized Tinting system design
- Increase commercial margins
- Differentiation from competition
- New Markets penetration

## Services

Our team of Chemists, Chemical Engineers and IT Engineers based on our state of the art 600 m<sup>2</sup> laboratories offer a full range of services to meet specific requirements of the individual paint manufacturer:

- Ensure 1:1 match with your old colorants
- Colorant and base paint compatibility
- Color matching and Database creation
- Software design and customization
- Accelerated or natural weather testing
- Total Solar Reflection (TSR) measurements
- Training

**ECOTINT® Cool formulation technology**, a unique worldwide novelty, enables the production of medium strong to very dark colors with very high Total Solar Reflection (TSR). All colors included in Leomix 260 fandeck, can be produced at high TSR values.

This does not only extends the lifetime of façade paints and plasters but also contributes to a more efficient use of resources. Hence it is a tool to impact sustainability.

# ECOTINT® Drop in

POS Colorants for Decorative Paints and Plasters

**Leonice** can provide you the most famous and widely used tinting systems in the world markets.

**Leonice** can also replace or propose an alternative to your own configured past system.

## ECOTINT® Drop in colorants offers you the chance to:

- Solve Quality Issues
- Solve Poor Durability
- Improve Canister Performances
- Acquire New Technology
- Normalize stocks and solve supply issues
- Reduce costs
- Be environmental friendly
- Work with an established reliable partner providing constant customer support and care

## How it works:

1. Receiving the **ECOTINT® Drop in** colorants

2. You add the **ECOTINT® Drop in** colorant on the top of the already previously placed equivalent colorant.

3. You can replace all the colorants or just some of them.

4. Your enhanced existing POS system is ready to be used.
